Spanning nearly two million hectares, this legendary wilderness is renowned for its extraordinary diversity of fauna and flora and offers some of the finest game viewing in the country. Every turn of the road holds the promise of a remarkable encounter - from intimate wildlife moments to dramatic, once-in-a-lifetime photographic opportunities.

Accommodation options within and around the park are extensive, ranging from ultra-luxurious lodges to simple, rustic camps, allowing visitors to tailor the experience to their preferences and budget. Upon request, Chattaronga will gladly arrange a photographic tour following your safari. Simply indicate this option when planning your hunt, and we will take care of the details.

MAPUNGUPWE NATIONAL PARK

Mapungubwe National Park is a place of remarkable diversity, where rich cultural heritage meets dramatic natural beauty. Its major attractions include an exceptional concentration of archaeological sites, ancient San rock art, and outstanding game viewing - including Big Five experiences.

The park is also known for its striking landscapes, from towering baobabs and ancient climbing figs to surreal "moon-like" sandstone formations, as well as its abundant birdlife and unique eco-routes. One of Mapungubwe's most distinctive highlights is the rare opportunity to experience the meeting point of three countries - South Africa, Botswana, and Zimbabwe.

AVOIDING DETECTION IS AN ART.

23 PROPRIETARY BOW AND RIFLE HIDES

Concealment is an integral part of the art of game hunting. Knowing which blind, hide or pit to use varies by the hunter's physical ability or disability, by bow or by rifle, by bait, by species, by season, by location. Whether at ground level, below ground level or from above at tree level,

Chattaronga has precisely designed the most effective cover, giving you, the bow or rifle hunter, the finest vantage point for taking your trophy shot.
